## KLAUS Nowak – Popart Artist and Painter

We, the KRAMSKI family, have been buying paintings from Klaus Nowak since the 1990s and have done our last purchase in 2019.

His pictures are impressive and colorful and we show them in our company building in our meeting rooms and on all walls inside our staircases. Many customers/visitors to our premises have asked about the beautiful pictures and I personally know one very good supplier who bought a big Elephant painting from Klaus and hung it into his office in New York.

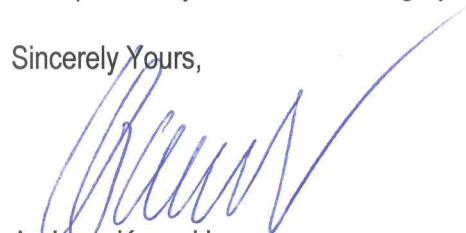

His price range is moderate for the pictures, mainly depending of the size and/or if it is a series of pictures. The big elephant sold for approx. 6,000 EURO and his prices range from 800 EURO to 25.000 EURO as far as I have seen.

Klaus is a wonderful human, having many artistic ideas and an absolute artisan mind set. He is a world traveller and we have been staying in contact nearly every other month and had a lot of open discussion about the situation of the world and ideas of generating a better world.

The BiG5 Series paintings are currently stocked in our premises and are available to be either picked up or sent anytime.

I can personally vouch for his integrity and his authenticity as an artist and as a friend,

Sincerely Yours,

Andreas Kramski  
Geschäftsführender Gesellschafter/Managing Partner
